Introduction to Competition

Objective 1 Analyzing The Competition Overview

Online Competition

What Is It?

Any online presence that is competing against you for the same keywords.

Why Is It Important?

Analyzing your competition will help you gain the knowledge you need to pick your battles as well as develop game plans to beat the competition you choose to go after.

Analyzing The Competition Overview

Objective 1 Analyzing The Competition Overview

Two Components of Competition

- 1) Amount of Competition
 - How many people are competing for a particular keyword or phrase?
 - Is this niche high competition or low competition?
- 2) Strength of Competition
 - How strong is your competition?
 - How much time, money and work would it take to outrank them?

Objective 1 Analyzing The Competition Overview

Picking Your Battles...

Here you have your champion body builders with many pages like Wikipedia, Amazon, Realtor.com, Big Brand Names, etc...

Here you have your professional body builders with a lot of online experience and education.

Here you have a lightweight with no prior online experience.

Analyzing The Competition Overview

Objective 1 Analyzing The Competition Overview

Search Engine Champions...

Don't expect to beat the champions unless you have the time and money to do so.

It's possible, but these huge names/brands have enormous marketing budgets.

Key SEO Competition Factors

Key SEO Competition Factors

What Are They?

Some of the most important components that affect your ability to rank on page 1 of google.

Why Are They Important?

It helps you determine the strength of your competition so you have the ability to judge what type of work it will take to outrank them.

Key SEO Competition Factors

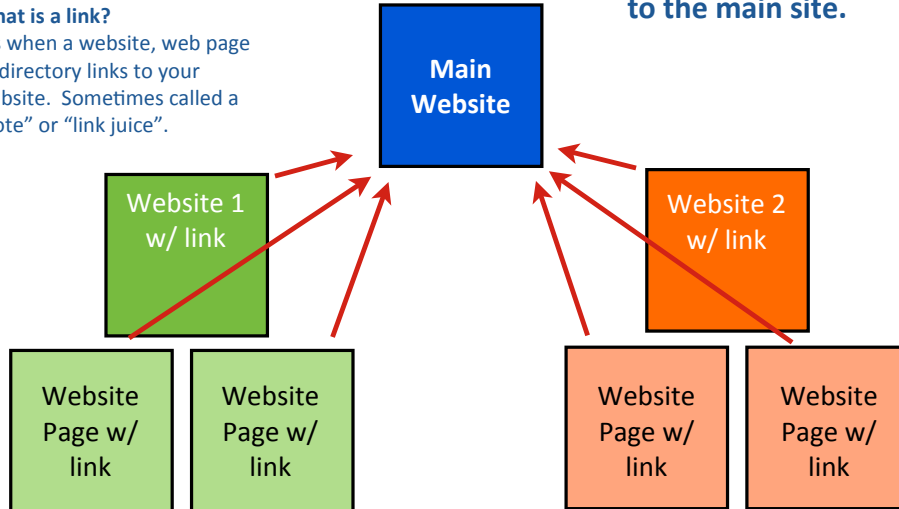

Objective 2 Defining Key SEO Competition Factors

of links

What is a link?

It's when a website, web page or directory links to your website. Sometimes called a "vote" or "link juice".

6 links in total pointing to the main site.

Key SEO Competition Factors

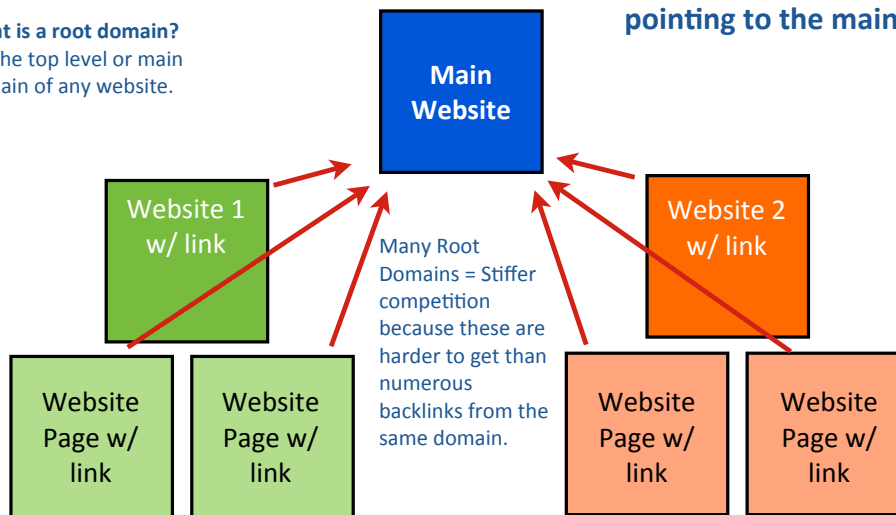

Objective 2 Defining Key SEO Competition Factors

of root domains

What is a root domain?

It's the top level or main domain of a website.

2 link domains in total pointing to the main site.

Key SEO Competition Factors

Objective 2 Defining Key SEO Competition Factors

Domain Authority

What is Domain Authority?

How old is the domain?
How long have links been pointing to this website?
Are other authority sites linking to your website?

TIPS: It's not always great to link out to tons of other websites because with each outbound link, you lose some of your link juice and authority. It's fine to put outbound links on your site, especially to your own sites, just don't over do it and make sure you are linking to quality sites when you do link out.

Key SEO Competition Factors

Objective 2 Defining Key SEO Competition Factors

Page Authority

What is it?

It has to do with google's algorithms in regard to the number of links and quality of links along with other factors.

Key SEO Competition Factors

Anchor Text Density

What is Anchor Text?
It is the clickable part of text that appears in a link.

In html, it is written like this:
`Anchor Text `

What is Anchor Text Density?
How many of the backlinks actually have the exact keyword in the anchor text? If a site has a lot of backlinks with the exact keyword you are wanting to rank for in their anchor text, they are probably actively SEO'ing for that term which means they will be tougher to beat.

I can see many of you with the "AHA" light bulb going on and I bet it just generated a TON of questions...

Well, for the past 16 months, we have tested this system and learned all of it's strengths and weaknesses.

The whole purpose of the Mortgage Assignment or Assignment of Mortgage Profits System is to give home sellers and buyers an alternative they wouldn't have had before they met you. Fortunately, I was a rookie myself when I got my hands on this system. Let me just say, if there is any rookie real estate investor or agent who is ready to make an investment in themselves and is motivated to take action, they can learn how to do this and make good money doing it. All you experienced agents and investors, well, you'll just hit the ground running as soon as you get your hands on this thing.

Key SEO Competition Factors

On Page Factors

What is On Page SEO?
It is the SEO that is done within the actual website and can be viewed by looking at a websites source code.

What are On Page SEO Factors to look for?

- Title tags
- Meta Description
- Meta Keywords
- URL/Permalink

*These are things I'll teach you to put in your All-In-One SEO Tool that helps you get ranked!

How To View Page Source:
Go to a web page, right click on a background section of that page (not a link or picture). Select "view page source" or "view source".

Key SEO Competition Factors

Objective 2 Defining Key SEO Competition Factors

Page Rank of Domain

What is Page Rank?

This is how Google assesses a pages authority based on a scale of 1 - 10.

Page Rank Tip:

As your website increases in page rank, it gets harder and harder to reach the next level. Page rank from 1 - 2, not that hard to do, getting to level 3 is harder and 4 even harder, and so on. So, a higher page rank, the stiffer the competition.

Key SEO Competition Factors

Objective 2 Defining Key SEO Competition Factors

Other SE Factors

What are other Search Engine Factors?

What other terms is that website ranking for? A well SEO'd site is likely ranking for many terms within the niche you are targeting. For example, if they are ranking for Puppy Dog Crates, they also may be ranking for Best Puppy Dog Crates or Puppy Dog Crates Review or Top Puppy Dog Crates, etc..

Additionally, they likely rank for more broad terms like Puppy Dog training or Dog training, etc..

Check out their web pages, posts, articles and links. Meta keywords may also provide some insight.

Objective 4 Evaluating Your SEO Competition

Evaluating Your SEO Competition

What Is It?

Collecting data that will provide you with the information you need to decide whether or not targeting a specific keyword is worth the time and effort it will require to achieve page 1 search engine status.

Why Is It Important?

The #1 reason people fail online is because they don't assess the competition. They end up spending a lot of time, money and work on a website that never achieves the results they desired and ultimately they give up and claim SEO strategies don't work.

Rei Rockstars

Step
1

Go the VMB Portal for this session and download the general guidelines.

Objective 4 Evaluating Your SEO Competition

Download General Guidelines

- **Page Rank:** 1 or 2
- **On Page:** Look for keyword in the title tag, url and description on the page 1 google results. If it's not there, the competition is not actively SEO'ing that term.
- **# of Root Domain Links:** 100 or less = pretty easy, up to 500 = medium, 500+ = more difficult
- **Domain Authority:** Less than 50 = easy, More than 50 = tougher, More than 70 = stiff competition
- **Page Authority:** Less than 50 = fairly easy

TIP

Don't Put All Your Hopes In The Top 3... Don't "Over-Analyze"!

Objective 4 Evaluating Your SEO Competition

- 📌 **The TOP 3:** Remember that if there is enough traffic to go around and if there is a chance that you can outrank a lower page 1 competitor, it may be worth your time and effort.
- 📌 **DON'T Over-Analyze!!!** It's easy for left-brainers (me included) to over-analyze this process for fear of making a mistake. I made TONS of mistakes but at least I took action and tried many different things. You will make mistakes, Google may change it's algorithms and ultimately you will learn from those mistakes and changes and keep pressing on!!

TIP

Be Prepared To Be Shocked From Time To Time

Objective 4 Evaluating Your SEO Competition

- 📌 **SEO and the process of evaluating the competition of other sites is a combination of all the factors we discussed.** Some sites may seem easy to beat yet they are tough and some may seem tough to beat yet they are easy.
- 📌 **Plus, you have to be prepared for the "Google" factor.** Google has a history of changing it's algorithms any time they wish, with no warning, so just make your "BEST" judgement call based on the knowledge I've passed on here and take action!
