Introduction to Content Components

Content Components

What Is It?

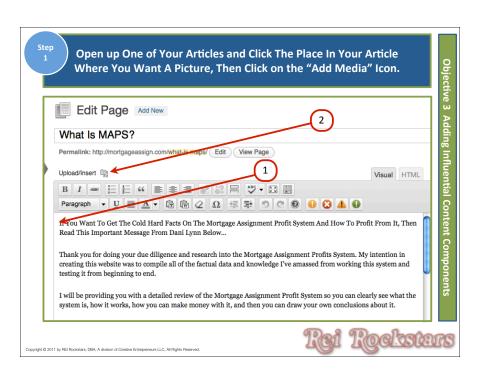

The components you integrate into your content, such as text, photos, audio, video, heading tags, etc..

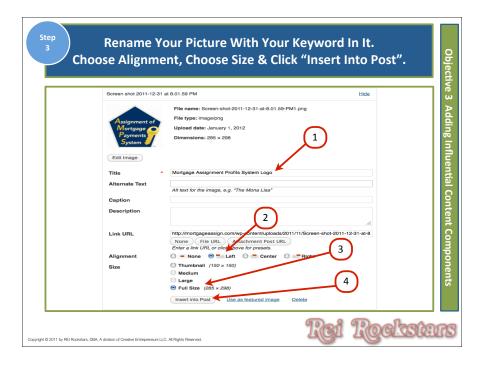

Why Is It Important?

These components help the Google Bots categorize your content and determine what keywords your content is relevant for. These components also help the users by having multiple message mediums & easy to read web pages.

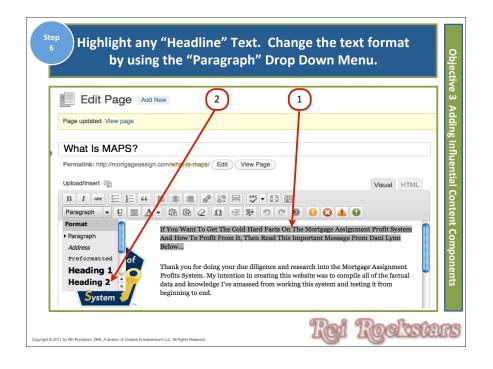

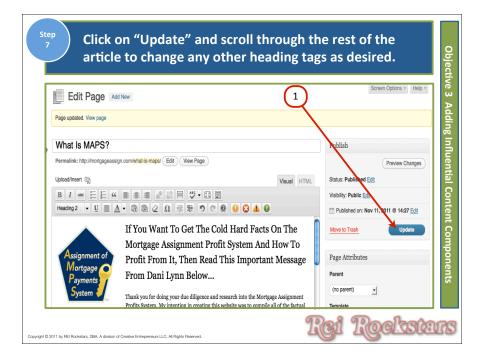

Step 7 Example

Short paragraphs (4 lines or less) plus we use headings throughout to break up the article.

Is It Legal?

Over the last couple of months I have spoken to hundreds of investors who heard about the Assignment of Mortgage Payments System or AMPS***. One of the big questions, particularly in response to some negative accusations made about the legality of this proces has caused investors to ask the question...

Is AMPS™ Legal?"

e Lawver Scott Home's AMPS™ Review Video

This is an important question because it doesn't matter how much money you make if at tr end of the day, you end up in jail. Obviously, we the REI RockStars run our business with integrity, and would never put all our hard work at risk by doing something illegal.

That said, there are a number of reasons why I believe the AMPS[™] are legal. I have formed these opinions by doing deals with my partners as well as talking to a number of attorneys who between themselves have done thousands of owner financed transactions without light.

Keep in mind though this is just my opinion, I am not an attorney and you should seek your own counsel.

Is AMPS™ legal? Here is my take...

Basically, AMPS™ is just another form of "subject-to" which has been around for a long time and has been taught by many "Gurus" including Robert Klyosaki just to name one. Now, would someone as high profile as Robert Klyosaki, teach strategies that were blatantly illegal.

NOT LIKELY ...

A Note About Heading Tags:

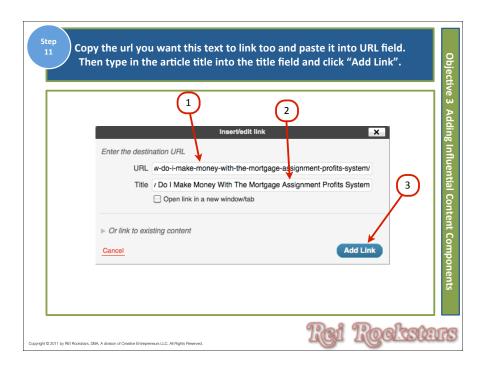

- Types of headings: H1 H6
- H1 is most important, H6 is least
- H1 & H2 are most commonly used
- H1 is typically the title of your page.
- Use other headings to break up article

"Hands Off" Article Writing: Reminder About Duplicate Content

Duplicate Content

A somewhat controversial subject but some tips that appear to be true in the current online environment:

- Search engines don't rank duplicate content
- Sometimes it won't show up at all, but when it does, the originator of the post is who gets ranked.

Template Websites

- Use them for linking to your own website.
- Use them to test their squeeze pages against your own.
- Don't spend time working on anything you don't own and control.
