# Introduction to Copywriting

## Copywriting

### *What Is It?*

**Copy = Words.** Copywriting is the art of writing for advertising and has been called the "Million Dollar Skill". It requires linguistic, persuasive and sometimes poetic skills. A copywriter uses all these skills to come up with text, headlines or tag lines which help sell a product, service, opinion, etc...

- 3) It Increases Your Bottom Line
- 4) It Keeps Your Prospects Continuing To Take The Next Step In Your Sales Process (reading your google ad, your capture page, your emails, your website content, your offer...)
- 5) It Keeps Your Prospects On Your Page when they are just one mouse-click away from one of your competitors
- 6) Good copy in a website or sales letter is an "asset" to your business and will continue to produce ongoing income.

- Don't make this complicated...keep it simple.

- Personalization will usually **DOUBLE** your results anytime you can use it.
  - Use their name

# Keys To Copywriting

Objective 1 Reviewing The Keys To Copywriting

## Copywriting Key #4 - Know Who You're Targeting

### TOP 3 Mistakes

- 1) Trying to sell something to someone who doesn't want to buy
- 2) Not getting your copy in front of the right prospects
- 3) Not telling the prospect what to do next or how to buy from you
  - Who needs your service?
  - How do you get in front of them?
  - Call to action and next steps

# Keys To Copywriting

Objective 1 Reviewing The Keys To Copywriting

## Copywriting Key #5 - Congruency

### 1) Be Consistent In Your Message

- What's in the title bar?
- What's in your headline?

### 2) Know Your Audience

- Strike a chord with your readers true concerns.
- What's on your mind may not be the core concern of the audience.
- If you don't have them at "hello", you just wasted a lot of time.
- Your headline needs to hit a bulls eye for what is foremost on their mind.

# Keys To Copywriting

Objective 1 Reviewing The Keys To Copywriting

## Copywriting Key #5 - Congruency

NO EMPTY PROMISES.

### 3) Back Up Your Promise

- What does the reader need to know about selling a house that is underwater?
- What are the facts?
- How can you prove what you claimed, that you're the expert, a reliable authority? How are you different?

You want people to know, in compelling, dramatic detail, the trouble you've gone too to become the expert so they trust you and recognize this expertise.

Your copy should be concise, interesting, convincing & reassuring.

...Knowing the answer to the above question will change your message and copy.

## Copywriting Key #6 - Writing Copy That Converts

### Know Your Customer: Entrepreneurs Want FREEDOM:

*"While top doctors and lawyers make in excess of \$1Million dollars a year, they don't have control over their time and they lack the freedom of a successful entrepreneur. How would you like to out-earn 99% of all doctors and lawyers and have a lifestyle they would be incredibly envious of?"*

because they don't test, track & tweak.**

- 2) Am I targeting the right prospect? Test it.
- 3) Does my copy just plain stink? Test it.

#### 2 Keys To Growing Your Business & Increasing Profits

### Sales Tip:

#### Emotion + Logic = Winning Combination

**Emotion:** People who buy purely on emotion typically end  
up with buyers remorse

**Logic:** Sales pitches purely based on logic hardly ever sell.  
Logic tends to induce more thought, contemplation  
and sometimes confusion.

**Solution:** Instill emotional triggers to get the response and  
add logic to justify it.

# Keys To Copywriting

Objective 1: Reviewing The Keys To Copywriting

## COPYWRITING TIPS:

1. Your first couple paragraphs are the most important so make every word count.
2. Use short sentences and short paragraphs.
3. Use the word "you" or "your" 10 times as often as the words "I" or "we".
4. Use conversational language. If you have a large vocabulary, try to bring it down a couple notches so the simply layperson can understand.
5. No "hype". Only use content that can be backed up with proof.
6. Address the WIIFM (What's In It For Me?) factor
7. Ask yourself "why should I care?" and if you can't answer that, start over.

TIP

Good News: You Don't Have To Be Perfect!

In all copy, relevancy is key #1! Your copy could be top notch and if you're content isn't relevant to your reader, it doesn't matter!!

Everyone should be a student of copywriting because no matter who you are in life, we all have to sell someone something at some point. Husbands to wives (vice versa), parents to children, employees to bosses (vice versa), etc/

You can also outsource all of your writing to professional copywriters if you want too and if you have the budget for it. However, should you choose this option, I recommend continual learning for a few reasons:

1. So you know who to hire (and more importantly who not to hire)
2. So you can write effective email broadcasts (real time emails)
3. So you can insert your personal stories or your personality to the professional content.
